

How to Create and Analyze a WPS

August 11

This seminar will cover the requirements of a WPS following AWS D1.1 and D1.5 codes. The session will show how to analyze and write a WPS to D1.1 prequalified processes, and how to write a D1.5 WPS from PQR data. Atema will provide copies of the D1.1 and D1.5 code books, but attendees are encouraged to bring their own in order to optimize their class participation.

1 Day - \$375

D1.5 Bridge Code Endorsement Training

August 12

This seminar will focus directly on the subjects which may be covered within a D1.5 CWI exam. The student will learn the critical aspects of the D1.5 code, and learn on how to plan and be effective in taking an exam in order to achieve success. Atema will provide a copy of the D1.5 code book, but attendees are encouraged to bring their own in order to optimize their class participation.

1 Day - \$375

*****Attend both classes for \$625!*****
